PROFILE

A passionate developer who is eager to achieve the best performance and skill as possible. Determined to learn any skill required and willing to improve my ability to create high quality applications with the help of seniors and mentors. I consider proper time management an important attribute in order to give the best result on the given time.

EXPERIENCE

GRAPHICS AND WEB DESIGN TEAM

Kathmandu, Nepal & Pnom Penh, Cambodia

Part of the secretariat staff in charge with creating graphic designs on a whole 4 day event on both Asia Pacific Summit 2018 and 2019, respectively. Had the opportunity to communicate with people and provide the needed materials with regards to the event.

EDUCATION

Online Courses and Webinars

2020

My passion with development has ignited especially during the pandemic. I started learning teaching myself code and learn from great teachers.

Web Development Conferences

2015

To be able to learn more and have more networks with fellow developers, I always grab opportunities to attend and listen to people with experiences and be able to apply it myself in my career.
