PROFILE

From the moment I produced "Hello World" of my first application, I knew I was hooked into the world of web development. But web development has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality websites. What started with a simple "Hello World" has become a full fledged passion that only gets more exciting as the years go by.

EXPERIENCE

Asia Pacific Summit 2018
Kathmandu, Nepal
Member of the secretariat staffs, Web/Graphics team. Our team developed websites and designed printed layouts(eg. banners, brochures) for the event advertisement.

React JS E-Commerce Web Application
https://philcobguitarshop.netlify.app/
Based on an ecommerce for people who shops for guitar, I have an experience developing an E-Commerce Application using React JS and some installed libraries using npm.

React JS Social Media Web Application
Created my own CRUD application that is powered by MongoDB and Node JS. It's one of my projects that brought me deeper into Full Stack Development

EDUCATION

Online Courses and Webinars
My passion with development has ignited especially during the pandemic. I started learning teaching myself code and learn from great teachers.

Web Development Conferences
To be able to learn more and have more networks with fellow developers, I always grab opportunities to attend and listen to people with experiences and be able to apply it myself in my career.

PRO SKILLS

HTML & CSS

Bootstrap

Javascript

React JS

Node JS

SQL/NoSQL
